BIO SOLUTIONS PVT. LTD.

*Engineered for Nature* 

**BIODEGRADABLE & COMPOSTABLE BAGS**

## " OUR VISION "

*To provide an alternative to every single use plastic product  
and contribute to a Green Earth Campaign*

# ABOUT US

---

**ECONIRVA Bio Solutions Pvt. Ltd.** is a **Central Pollution Control Board (CPCB) Certified** manufacturer of compostable plastics. We specialize in producing high-quality biodegradable and compostable bags that serve today's needs without harming tomorrow's world.

At ECONIRVA, we believe sustainability should be thoughtfully designed, responsibly manufactured, and accessible to all. Every bag we produce is a step toward reducing plastic pollution and protecting our environment. Our products are carefully developed to replace conventional plastic while maintaining strength, safety, and reliability.

*"Engineered for Nature" – that's our concept, motto, and inspiration*

## RAW MATERIALS

### CORN STARCH (PLA)

ECO-PLA

**Properties:** Plant-based polymer, Excellent mechanical properties, High strength, Easy to process
